GRAND TOTAL OF CREDITS			121	

Notes: *This section (which will expand as needed) can be used for whatever notes the department wishes to include.*

This is a good place to provide information about the General Education program you are recommending. You may have some specific courses for students to take, and those should be indicated in the plan above; you may have a preference regarding the order in which portions of the Gen Ed program are taken, and that can also be in the plan above. Finally, you may want to include in this section some general guidelines regarding the General Education program.
